Summary

Experienced Angular Developer with 6+ years of professional experience across frontend development, technical leadership, and mentoring. I enjoy transforming complex requirements into intuitive, high-performance web experiences. I focus on optimizing applications, defining clean architecture and reusable patterns, and continuously improving the quality and impact of the products I build.

Work Experience

- Currently working as a **Software Developer** at **Cognizant**, Pune, since **November 14, 2022**.
- Previously worked as a **System Engineer** at **Tata Consultancy Services (TCS)**, Indore, from **February 24, 2020** to **November 11, 2022**.

Software Skills

- Web Technologies - HTML5, CSS3, JavaScript, TypeScript, HTML, CSS, jQuery
- Frameworks & Libraries – Angular9+, AngularJS, Bootstrap, RxJS, Material UI
- Design & Collaboration: Figma, Jira.
- Tools & DevOps: Git, GitHub, CI/CD, VS code, Jenkins, Swagger

Experience

Software Developer | Cognizant | November 2022-Present

- Currently working on the NSDL project, one of the largest depositories in the world, managing securities in dematerialized form within the Indian capital market.
- Engaged in regular client interactions to understand business requirements, collaborating with technical teams and senior management to deliver software product features that align with client needs.
- Worked closely with the product team, front-end developers, and back-end developers to develop and implement new functionalities in the product.

System Engineer | TCS | March 2021-November 2022

- Integrated Contract Finance into the system from scratch, including designing UI screens, developing Java services, implementing business logic, and creating stored procedures to enable real-time data flow between the interface and the database, ensuring the system serves over 300,000 customers worldwide.
- Lead a team of 7 members, following Agile methodology, conducting proper sprint planning, and maintaining a track record of 100% on-time deliveries.
- Translated business processes and requirements into technical integration requirements and designed appropriate technical solutions.
- Conducted thorough reviews of existing architecture, identified design gaps, and recommended enhancements, including revamping the entire application UI to align with design guidelines using HTML, CSS, jQuery, and AngularJS.
- Collaborated with Product Management and clients to analyze requirements and provide functional suggestions, ensuring alignment with technical solutions.
- Utilized technologies and tools such as Java, Spring Framework, Maven, Eclipse (Mars), AngularJS, HTML, CSS, Gitlab, and Katalon for development and testing.

Trainee Assistant System | TCS | February 2020 - February 2021

- Worked as a Trainee Assistant System Engineer, providing solution guidance for shaping strategic business technology projects, with a focus on application architecture using Agile/Scrum, continuous integration, automated configuration management, and test-driven development.
- Technologies and tools used: Java, Spring Framework, Maven, Eclipse (Mars), AngularJS, and Katalon.
- Identified the need for unit testing and successfully introduced JUnit and Katalon, simplifying the unit testing process and improving overall software quality.

Recognitions and Responsibilities

- Received client appreciation rewards for successfully delivering a project in January 2024 at Cognizant.
- Awarded customer appreciation points for successfully developing a project in June 2023 at Cognizant.
- Led a Tech Team of 7 members from January 2022 to November 2022 at TCS, ensuring successful project delivery.
- Recognized with 4 On-the-Spot Awards and 2 Star of the Month Awards for outstanding performance from November 2021 to February 2022 at TCS.
- Honored with 2 consecutive 'A' band ratings as a top performer for the project in the financial year 2021-2022 at TCS.
- Received a Rating of 5 for extraordinary performance in TCS Finance in March 2021.
- Conducted over 6 M-Skills sessions to support associates' skill development at TCS in January 2021.

Education

- Master of Computer Application | Mediacaps University | 2017-2019 | CGPA 8.1
- Bachelor of Computer Application | Acropolis Institute of Technology Research | 2014-2017 | 69%

Personal Competencies

- Highly reliable, responsible, and detail-oriented with a strong focus on quality and accuracy.
- Quick to learn and adapt to new technologies and challenges, demonstrating a proactive approach to problem-solving.
- Good communication skills, coupled with a strong sense of professional ethics and integrity.
- Thrives in dynamic, fast-paced, and global team environments, effectively collaborating across diverse teams and time zones.
